## PROFILE

Data Science and Artificial Intelligence student at Leiden University. I currently work as a junior developer at Nextra Software, focusing mainly on the front end with TypeScript, JavaScript and React.js. Previously worked in production at Johnson & Johnson. I also have experience working with Python and SQL, mainly for data analysis.

## EDUCATION

**Leiden University** Aug 2024 – present

*BSc Data Science and Artificial Intelligence*

**Rijnlands Lyceum Oegstgeest** Aug 2022 – 2024

*International Baccalaureate Diploma Programme*

## EXPERIENCE

**Junior Full-Stack Developer** Mar 2026 – present

*Nextra Software*

- Build front-end features in TypeScript and React.js, with some back-end work in Node.js.

**Production Assistant Supervisor** Jun 2024 – Feb 2025

*Johnson & Johnson*

- Supported production operations in a GMP (Good Manufacturing Practice) regulated environment.

## CERTIFICATES & JOB SIMULATIONS

**Data Analytics and Visualization Job Simulation – Accenture (Forage)** Jul 2023

- Cleaned, modelled and analysed 7 datasets to identify content trends for a social media client.
- Presented key insights to client and internal stakeholders in a slide deck and video presentation.

**Data Visualization Job Simulation – Tata Consultancy Services (Forage)** Nov 2023

- Built data visualisations to support executive decision-making.
- Prepared questions for a meeting with client senior leadership.

**Measuring Economic Inequality in Today's World – UCL**

- Analysed income data for 5 EU countries over 5 years, alongside inequality in health and education.
- Studied long-run income inequality trends across the past millennium.
